Description

HE2201-RHDS-MILODON

SB Chev Oil Pan Suit Dart SHP Pan Capacity 6 Quart (5.7L), 8 1/4" Deep

High power output design uses a deeper pan front to allow the use of a full length competition style windage to yield the most available power. Tray fastened into the pan so no extra mounting is required. Pan fits stock crossmember without modification when the correct Tall-Narrow frame and engine motor mounts are used. The Short-Wide mounts can not be used. Low profile sump allows good ground clearance, use of the stock starter and oil filter yet increases capacity. Includes high strength magnetic drain plug.

- Designed for Dart's Special High Performance blocks.
- Clears Stock Chassis and Steering As Listed and Most Headers.
- These Highly Engineered Oil Pans Actually Free Up Additional Horsepower.
- A Necessity Where High Volume Oil Pumps and Increased RPM Ranges Are Used.
