Description

AF400-1M-CUT

The AeroFlow 400 series push lock hose is designed for the use with AeroFlow's push-on fittings. Available in Blue or Black.

- Suitable for coolants, oil, air and methanol
- Where temperature exceeds 70°C, the use of a clamp is recommended
- Temp range -40°C to 100°C

NOTE: Due to the use of unknown additives in some fuels, AeroFlow is unable to guarantee the rubber hoses compatibility with all fuels unless otherwise stated. AeroFlow recommend the use of 200 series PTFE hose for all other types of fuels.
