Description

Aeroflow's Billet EFI Fuel Rails feature precision machining with heavy duty mounts for high pressure applications. Aeroflow fuel rails are threaded with a -8ORB port and have a 16.1mm / 41/64" size bore. Aeroflow fuel rails are double anodised and are available in Blue, Black, Red and polished finishes. All Aeroflow fuel rails are to suit 14mm injectors. For 11mm injectors use AF889 adapters
