Description

FUELSYS-1

We've taken the headache out of trying to piece together all the components needed to assemble a quality fuel system.

THIS FUEL SYSTEM KIT IS FOR USE WITH CARBURETTED ENGINES PRODUCING UP TO 550HP.

No fuel pressure regulator is used - Fuel pressure is regulated internally within the AEROMOTIVE Fuel Pump.

THIS KIT INCLUDES:

* ALLOY FUEL CELL 75 LITRE - Available in raw OR black finish and also various sizes

* VARIOUS AN / ORB & NPT FITTINGS - Available in blue / black or silver

* ROLL OVER VALVE TO SUIT FUEL CELL SUPPLIED

* BILLET 100 MICRON FUEL FILTER - Available in blue / black or silver

* BILLET BRACKET TO MOUNT BILLET FILTER SUPPLIED - Available in polished or black finish

* AEROMOTIVE HIGH OUTPUT BILLET FUEL PUMP

* ALUMINIUM FUEL LINE - 1/2" HARDLINE (25 FOOT ROLL) - Available in Raw OR Black Finish

* TUBE FITTING ADAPTERS - (No pipe flaring tools needed to use your 1/2" Hardline) - Available In Blue / Black OR Silver

* 10 X 1/2" CUSHIONED P CLAMPS - For mounting of your Aluminium Hardline - Available in Blue or Black

* CARBURETTOR DUAL FEED FUEL LOG - Available in Blue/Red with Stainless Steel Braid OR Black with Black Hose

* 1-1/2" 0-15 PSI LIQUID FILLED FUEL PRESSURE GAUGE - Available with Black or White Face

* ARP - 50ml Tube of Thread sealant for the NPT fittings supplied

Everything that is needed is Supplied other than the actual hose ends and hose.

The hose ends & hose can only be determined once this kit has been mounted in your vehicle.
