Description

The **ICE 4200 Pro Series Race Coil** is typically used with ICE 7 Amp systems in N/A applications and ICE 10 & 20 Amp systems in both N/A and boosted applications.

The sophisticated technology in the **ICE 4200 Pro Series Race Coil** is designed to deliver the highest possible intensity and duration to support the most powerful race ignition systems and resist vibration in the most punishing of conditions, featuring:

- Black anodised extruded alloy protective cover with integrated mounting bracket.
- Quality brass terminals to resist corrosion.
- Advanced design to withstand vibration and deliver maximum, consistent voltage.
- Lightweight for a coil of this output.
- Extremely long service life under the most demanding road, off-road, race or marine applications.
