APPLICATION:**355 Holden****Gold Pro Plus Engine Dual Plane Intake 515+HP****(Dynoed With Turn Key Extras)**

This combination is based on our very popular Gold Pro 355 Stroker combo (L3553STR) and uses a street solid roller camshaft eliminating the hassles of prematurely worn lobes that is so common with Holden V8 Engines. The Solid roller camshaft gives you extra reliability with more torque & power over the conventional solid cam. This package uses no carby spacer and a dual plane intake for customers who want power all under the bonnet.
