Description

AF64-2042

Fast and easy no mess oil changes are now possible thanks to Aeroflow's universal oil filter relocation system. The system contains an adaptor to convert the stock filter landing to an oil passage, a remote single filter mount and 2.5 metres of -10 braided hose for custom fit oil lines. Anodised Aluminium ORB fittings eliminate messy sealants, thread tape and the chance of cracking the housing due to over tightening. Universal Oil filter Relocation Systems fit engines with the following spin on oil filter thread sizes:

3/4" - 16, 13/16" - 16, 1" -12, 18 x 1.5mm, 20 x 1.5mm and 22 x 1.5mm. They are designed for the use of oil filters with a thread size of 3/4" - 16, such as AF64-2016S or AF64-2016BLK or equivalent
