### Description

Pavtek Part #ED-2101

#### **Chevrolet 262-400 Small-Block V8**

*PERFORMER - '86 & EARLIER (idle-5500 rpm)*

Performer manifolds are dual-plane, low-rise intake manifolds with a 180° firing order and patented runner design that you won't find in other brands. This patented design greatly improves torque over a wide rpm range for excellent throttle response, especially off-idle through the mid-range. Performers are ideal for passenger cars, trucks, 4x4s, tow vehicles and RVs. There are EGR and non-EGR versions available for most V8 and some V6 engines.

- Performers accept late-model choke, water-neck, air-conditioning, alternator and H.E.I.
- Has provisions to add oil fill tube.
- Not for 1987 and later cast iron or Chevy Bowtie heads.
- Will fit 1987 and later stock aluminium heads.
- Made in USA
