Description

Pavtek Part #ED-7525

**Chevrolet 262-400 Small-Block V8**

**RPM Air-Gap Dual-Quad (1500-6500 rpm)**

Designed for 1955-86 S/B Chevys, this intake stands 1-5/8" taller than the low-profile C-26 intake and offers performance improvements in the 1500-6500 rpm range. The large runners feature our unique Air-Gap design that separates the runners from the hot engine valley for a cooler, denser charge. Will not fit under stock Corvette hood.
